

ADVANTAGE OF USING X-RAY & WATER JET CUTTING

for a complex and/or multi-specie production

SOME OF THE CHALLENGES FOR PROCESSORS TODAY

COMPETITION FOR WHITEFISH WITH
OTHER PROTEIN SOURCES

STABILITY IN REGARDS TO
ACCESS/SUPPLY & QUALITY OF
WHITEFISH PRODUCTS

LOW PROFITABILITY IN PROCESSING

THE NEED TO ENSURE HIGH QUALITY & COST EFFECTIVE PRODUCTION

HIGH DEGREE OF AUTOMATION

OPTIMIZE THE PRODUCT MIX

TO GET THE MOST FROM ALL THE RAW MATERIAL

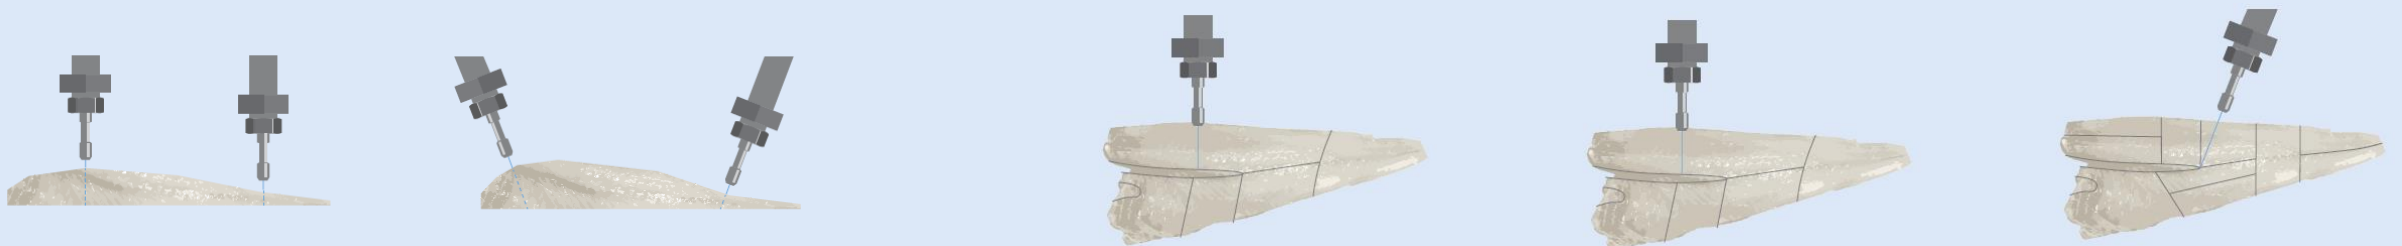

ENSURE QUALITY TO THE MARKET

VALKA CUTTER

for a multi specie production

- » Work simplified and made easier
- » Higher throughput even when producing complex products
- » Better handling → Maintain top quality
- » Higher % of fillet goes to A-products
- » Lower cost of labor
- » Possibility to maximize the value of each fillet
- » Handles multiple species in a single machine

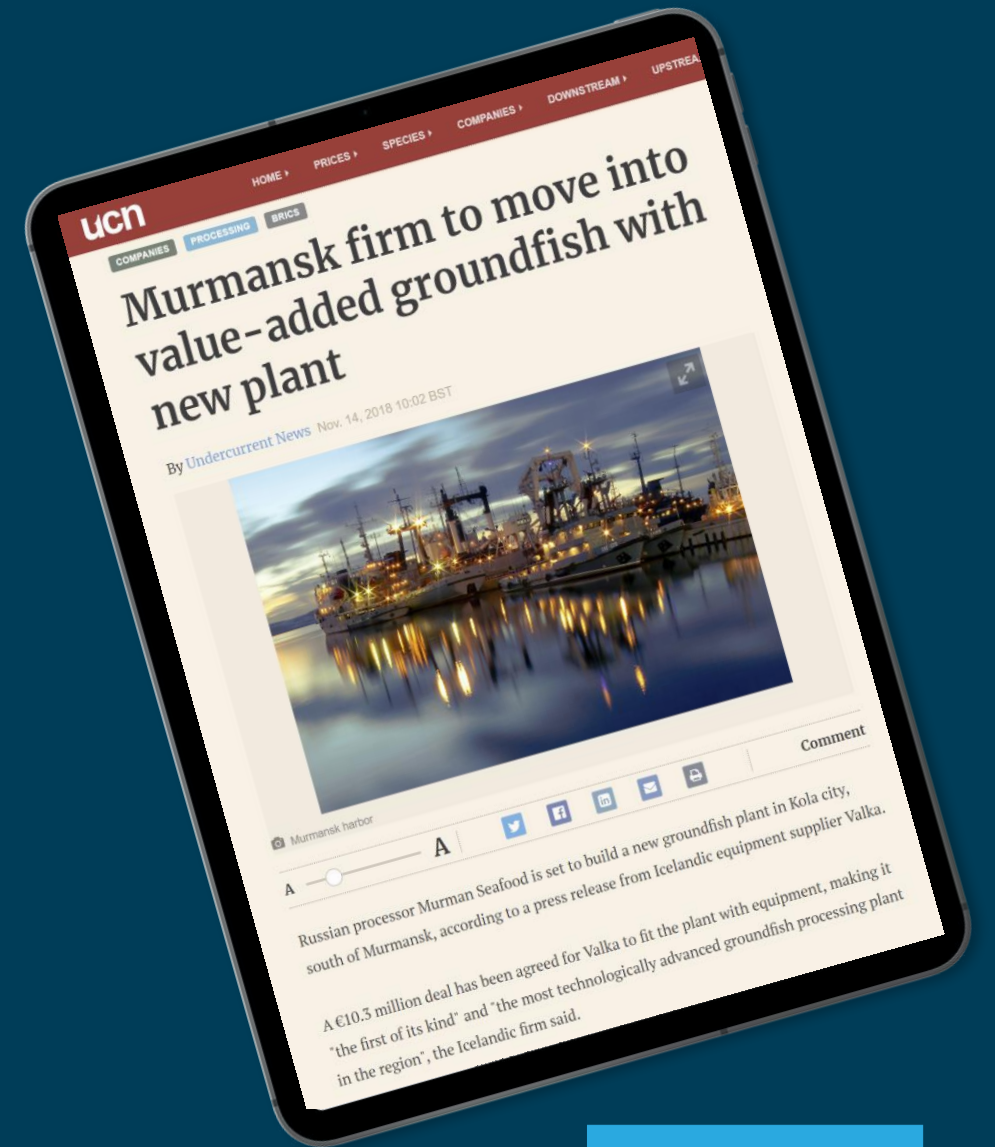

Valka Cutter - endless possibilities

FIRST INSTALLATION IN RUSSIA

MURMAN SEAFOOD 2019
